III. **Band Director's Report** – 85 of the 92 students attend game on 9/6. Band sound production is impressive. Jazz band is putting together a great set. Guard and majorettes are doing very well. Choir is doing extremely well and Richard is looking into getting them into a judged competition. CSUS band day is coming up fast. Leaving campus at 11am. Richard is going to talk to Joe Volek about the announcer constantly talking and not letting the band play during the football game. Students will start being accountable to coming to attention better. Communication during games needs to be improved – students in back rows don't know what is going on most of the time. Also there will be a NO PHONES during games policy instated. They cause too much distraction. Richard will send out a note to parents explaining any new policies. Richard also promises to not make last minutes changes, i.e. things that affect the guard or majorettes. Lastly, Richard is looking for some students to be "music librarians" to make copies of the music for access to those students that forgot theirs.
